

## Seminar in Slovakia

For the first time in Prešov (Slovakia), a seminar in Shinto Muso-ryu Jodo was held on April 11–12 under the leadership of Patrik Orth.

Although the number of practitioners was small, participants came from several countries, including Slovakia, Ukraine, Hungary, Switzerland, and the Czech Republic.

Most of the Slovak participants were beginners, so they received special attention from the sensei, as well as support from more experienced practitioners. The more advanced participants were also able to train kata appropriate to their own level and experience.
